William Bavagnoli
President
Specialized Storage Systems
30 Sherwood Ln
Unit 9
Fairfield, NJ 07004

Dear William:

We would like to take this moment to congratulate you and your organization for the successful completion of our mezzanine project.

As you are aware, our project required a highly specialized mezzanine with moveable sections and non-standard outline dimensions. While other suppliers expressed concern over our unusual requirements, your organization rose to the challenge and delivered a quality product that has exceeded our expectations. Just recently, we utilized some of the specialty features of our mezzanine and completed a critical material handling task on time and with minimal labor cost.

Please also thank your installation group for their courteous and professional manner in observing our lab cleanliness and noise restrictions during construction.

Sincerely,

Ann West-Pettit
Procurement Manager
